

Mr Robbins on Exam.  
lets his hat  
Send some broken  
More  
news - That  
is to say  
the night before  
the exam  
I am  
going to have  
the exam  
studies to do  
you can  
get up  
as you like  
it will  
be no  
work  
to get  
up  
in  
the  
morning  
making the dishes & parlour - as we  
I don't know us that is to be open for  
illuminations Should be made with candles  
& we shall raise some candles - I shall  
get some ~~cake~~<sup>but</sup> & refreshments - we have got  
some knives done. & we shall have a toler-  
able table - this we have suffered greatly  
for the want of people to work - we had  
less money than labourers -  
I am greatly relieved by the arrival  
of the Dublin Box - who got him through  
the customs - & what was the emergency -  
will you send a bundle on Monday or  
Tuesday night - as the law may require -  
this is Dublin will get it off & send  
ten or a dozen of bushel bush - & I think  
I can get some story books for them -  
for the book table - don't forget this -

I enclose a note for Mrs. Spence which  
you can send if you like it - I should  
much prefer her with us than any body else  
& hope you will send it - Remember that  
the little Braafom comes to you - & Mrs.  
Emerson - those are as the right kind of  
folks to have, & far the more I don't dictate  
to Harvey that I shall expect him to give  
up his chamber to me for the time of the  
fair & I will take in any body that may be offered  
me - You can sleep somewhere else or be lying  
on a bed. —

With many thanks I start writing to her for  
want of time - that Mrs. Richardson will  
come up with me on Friday afternoon - this  
I could not avoid - as she is afraid of  
being on her own hook - & I would not suggest  
to her the expediency of waiting till Monday,  
The ~~Satellite~~ <sup>Winneshiek</sup> ~~that will not come~~  
at all, as she engaged to go & help Mary Eddy  
that morning just at this time - & if  
she should stay up town till the last of the time  
I dare say she would not be quittet upon  
them - I suppose that Mrs. R. means  
to go part of the time to Dr. Adams's in  
Pewell street - I think he is the fellow about

Six o'clock next Friday afternoon - I  
trust to find things in some form for summer  
& have full time who bleaches first -

Dont give up the green - Nothing else  
answers - I guess there it can be bought  
five dollars worth will do the place -  
very tick of the running trimming &  
Spring can be got, in any weather -  
I got \$5,00 worth last year & it went a  
great way - See Mrs Johnson about this  
& take her to take this into her own hands  
& get it done on Friday or Saturday as we  
did last year - Patterns will know - about  
it be helpful as his being old is invaluable  
See if I can have Mrs Loring's woman as I  
had last year as the refreshment table -  
& I shall need black Couleur - Mrs John-  
son will get her - She wishes & I shall  
be there to see to myself - I mean that  
they shall be perfect -

With you ask Mrs Loring to ask Mrs  
Seabell if she will lend her branches  
again for the occasion - We must have  
in general new cloth for the tables I  
suppose the old is so much of it  
old & stained & torn up that they  
useful for some thing it will not

cover the whole case - It will help  
me greatly at the Refreshment Table  
where there must be clean cloth every  
day -

I send a note to Mary you will come  
to Grinnell Babcock & the Richam. Eliza  
& Henry Robbins which I wish you to  
show him in trusty - I shall order  
Passes for the first day from Shingorum  
with out regard to remittances from  
the country & then shall hope for supplies  
this is the best I can do - I trust that  
some refreshments will come in I am  
told that Lynn is to be strong on  
Food - they have spent their time  
in earning money by buying shoes  
which money they mean to lavish on  
refreshments - don't go near Rose  
for any thing about the fair - he  
will not let us have a task until last  
year there was no fair for in the seventeen  
thousand -

I shall bring candles - I hope enough  
but don't know - don't keep back any  
lights - make all the Boston folks fetch their  
Candle Sticks as well as lumps -

Hail Holy Light - !!! -

Many I express thee an hundred -

MS. B. 2. 20. 1821
